## Pracovné skúsenosti

JÚN 2023 - SEP 2023

### Front-end developer

GLOBERG:Digital, k. s., Bratislava, Slovenská republika

I was coding websites for huge variety of clients using custom technologies as React, Next-js and WordPress. This job also included designing the website itself. I was working On-Site but I would prefer to work on Home-Office. I quit this job because of my studies.

MAR 2023 - JÚN 2023

### Freelancer

self employed, Bratislava, Slovenská republika

I started coding websites as a Freelancer for businesses or individuals according to their requirements and seeking every opportunity to learn new Tech.

JÚN 2021 - MAR 2022

### IT Assistant

Deutsche Telekom IT Solutions Slovakia, Košice, Slovenská republika

As an Information technology assistant (IT assistant) I helped to install, operate, and maintain computer networks and communication systems. I also helped with task and tickets.

- I started as on-site employee but then I switched to Home-office

## Vzdelanie

SEP 2022 - FEB 2023

### Fakulta informatiky a informačných technológií

informatika

Slovenská technická univerzita v Bratislave, Bratislava, Slovenská republika

I studied computer science at this college. But unfortunately I ended my studies early due to work and lack of time.

SEP 2023 - Doteraz

### Fakulta elektrotechniky a informatiky

Aplikovaná informatika

Slovenská technická univerzita v Bratislave, Bratislava, Slovenská republika

My current university program is Applied Informatics at Faculty of Electrical engineering STU

SEP 2018 - JÚN 2022

### Business Academy

Business IT technologies

Trebišov, Slovenská republika

My secondary school focused on business IT

technologies and procedures used in IT companies. I also started programming in my first year here.

---

## Kurz alebo certifikát

JAN 2023 - JAN 2023

### Udemy Front-end course

Udemy

I completed a couple of courses on Udemy and other learning platforms.
